

EDSS Project Bulletin

Redlands Hospital
Builder: Sommer & Staff Constructions
Contract Period: 52 Weeks
Contract value: \$1,560,000.00

Project Details

EDSS was selected to provide electrical contracting services for the QLD Health upgrade of Redlands Hospital. The upgrade was completed in 2008 and included -

- Expansion of the Emergency Department from 11 treatment cubicles to 31 treatment cubicles
- Expansion of the current Pathology Department
- New building for the Health Records Department
- New 12 chair Renal Dialysis Unit

As part of our scope of delivery, EDSS provided the following services -

- Underground Reticulation
- Modifications to the main switchboard
- Distribution Switchboards
- Submain Cabling & Cabling Support
- Power Installation
- Lighting Control
- Medical Panels and Signage
- Communication
- Electronic Security & Access Control
- Fire Detection Systems
- Nurse Call Upgrade

EDSS completed all scope of works on-time and to the quality, safety and budget requirements of the project.
