

EDSS Project Bulletin

University of Queensland - Michie Building Refurbishment
Builder: St Hillers Contracting
Contract Period: 40
Contract value: \$3,800,000.00

The University of Queensland's Michie Building (Pronounced Miki), named after Foundation Professor John Lundie Michie, is undergoing the first refurbishment since it was built in 1972. Located at the Western End of the Great Court on the St Lucia Campus, the eight story building is home to the School of Social Science, the RD Milns Antiquities Museum and the Anthropology Museum.

Starting in March 2011, the renovation, being completed in two stages, is due for completion Early 2012.

EDSS has been subcontracted to execute the following scope of works:

- Demolition & cable re-diversion
- Power, Lighting & Lighting Control installation
- Security & CCTV
- Fire Detection
- Communications
- Cable Supports
- Mains & Sub-mains
- Distribution Boards & Switchboards
- Uninterruptible Power Supply
- Transformers & the Temporary Power

EDSS have been very busy with the UQ Michie Building Refurbishment Project with roughly 9 electricians and data specialists along with 7 apprentices, ranging from 1st to 4th years, working around the clock.

Various subcontractors have been employed by EDSS to fit out the Security, Fire Detection and High Voltage Works.
