

EDSS Project Bulletin

Wide Bay ECR Facility
Builder: St Hillier's Property
Contract Period: 26
Contract value: \$ 690,000.00

The major upgrade to the Wide Bay Military Training Area located near Gympie involved the construction of Electronic Classification Range, Accommodation and Supporting Infrastructure. EDSS were contracted by St Hillier's Property to undertake the design, supply and installation of all electrical services for the new target range, control office, BIR Firing Tower and Flag Bunkers.

The target training area is a 600m range that consists of multiple firing mounds located every 100m. Each mound consists of ten individual firing lanes which can be viewed remotely via PTZ cameras from the control office. Generators and Solar Panels with battery back-up are used to power the system.

EDSS were engaged to complete the following scope of works;

- Supply & Install a 160kva Generator
- Supply & Install Main Switchboard and Distribution Switchboards
- Internal and External Lighting, Power and Communications
- Installation of Electrical and Communication System Cabling
- Lightning Protection
- Supply and Install CCTV Cameras, Monitors and Controls

EDSS are pleased to have been a part of this major upgrade.
